Our ground-breaking attractions are the most popular rides in the world's best known amusement parks. From the latest blockbuster movie to leveraging your park's theme, we develop one-of-a-kind rides. Our exciting portfolio of rides, are customizable to fit any location.

Since 1926, our sister company, Dynamic Structures, has forged an impressive list of "world's firsts" in the design and construction of some of the most sophisticated telescopes and complex bridges on the planet. We have applied that valuable experience to the development of state-of-the-art amusement ride systems, praised for their technical precision and reliability.
